

THUAN LE NGOC NGUYEN

CYBER SECURITY CONSULTANT

Ho Chi Minh City, Vietnam | thuanlengocj2511@gmail.com | 0945426331 | [Linkedln](#)

PROFILE

Cybersecurity & GRC Consultant with experience delivering risk, compliance, and data protection engagements across financial services and enterprise clients. Skilled in regulatory compliance (Decree 356/2025, PDPL 2025), DPIA/DTIA, and developing data flow and data inventories to identify high-risk processing activities. Experienced in SOC 2 Type II engagements, including control testing and evidence validation across Security, Availability, and Confidentiality domains. Familiar with ISO/IEC 27001 control framework and audit principles, with ability to support control mapping and gap analysis.

CERTIFICATIONS

Certified Personal Data Protection Specialist (VnDPO), VNDS & NCA	Apr 2026
ISO/IEC 27001:2022 Lead Auditor, Mastermind Assurance	Feb 2026 to Jan 2029
Certified in Cybersecurity (CC), ISC2	Nov 2024 to Nov 2027
Proofpoint Certified DLP Specialist 2024, Proofpoint	Oct 2024 to Oct 2025

EMPLOYMENT HISTORY

Cybersecurity Privacy Consultant, EY Cybersecurity Ho Chi Minh City	May 2024 to Present
- Delivered cybersecurity risk and compliance assessments for multiple clients across financial services and other industries, identifying control gaps and recommending remediation aligned with regulatory and business requirements. - Conducted data protection compliance assessments against Vietnam regulations (Decree 13/2023/ND-CP, PDP Law 2025), supporting clients in evaluating current-state compliance and defining remediation roadmaps. - Developed data flow diagrams and maintained data inventories to support data protection compliance assessments and risk identification across client environments. - Performed Data Protection Impact Assessments (DPIA) and Data Transfer Impact Assessments (DTIA), identifying high-risk processing activities and recommending control enhancements. - Mapped security controls against regulatory and industry frameworks, supporting evaluation of control design and effectiveness. - Performed control testing and evidence validation for SOC 2 Type II engagements across Security, Availability, and Confidentiality criteria, including logical access controls, system monitoring, backup and recovery, and data protection controls. - Supported HIPAA Security Rule gap assessment by reviewing policies and identifying preliminary compliance gaps. - Developed and delivered cybersecurity awareness training sessions, improving employee understanding of security best practices (email security, phishing, acceptable use). - Monitored regulatory updates in Vietnam data protection landscape and contributed to internal knowledge sharing.	

EDUCATION

Bachelor of Information Technology Royal Melbourne Institute Of Technology, Ho Chi Minh City	Jan 2021 to Apr 2024
